

Integrated **Print Management** Solutions

For nearly 50 years Graffen has specialized in giving our customers a competitive edge through advanced technology solutions that streamline organizational and workflow processes and reduce costs. Over the past 15 years, our print management solutions have played a prominent role in our company's continued growth and success. Customers engaging Graffen for print management services run the gamut—from small neighborhood businesses to some of the Philadelphia area's largest organizations.

Low-Cost, High-Performance Solutions

Graffen helps businesses achieve the optimal blend of cost and performance by managing their copy and printing expenses and keeping their equipment working at full potential. You may be surprised by how quickly Graffen can help you reduce your overall printing and document creation costs. There's simply no reason to waste time and money counting toner cartridges and paying exceptionally high prices for printing supplies. Choose Graffen for superior print management solutions that will work for your business.

- Proper location of print management devices
- Reduced network traffic through well-deployed networked devices
- Asset tracking, usage monitoring and detailed reporting
- Preventive service, alerts and notifications
- Rules-based printing that directs print jobs to the most productive and cost-effective equipment
